## The Menominee Way: Attitude

by Editor

One of the most stand-out parts of Menominee is our philosophy of the Way and the faith we hold towards it. The Way is what guides our moral compass here at the Friendly Confines. Every Sunday night, all of camp comes together to reflect on the week and honor individuals who have strongly represented one of the six traits of the Menominee Way. The C.I.T.s are an integral part of this experience as they build the fire we sit around as well as honor people during the ceremony. For the first Way ceremony, the C.I.T.s decided to start with the Attitude trait. They began the ceremony with the following speech:

"Attitude: A positive way of thinking that persists through victory and defeat. Attitude means always finding the good in situations and uplifting your cabin and teammates. Attitude means keeping an optimistic mindset and facing challenges head on. To have attitude means you must carry yourself in a genuine manner and always think of others before yourself. With all of this in mind, one can effectively represent Attitude at Camp Menominee.

The C.I.T.s proceeded by honoring the following eight individuals:
