Green and White Reveal

by Editor

While all of camp walked to The Way on Sunday night for our weekly reflection, few were aware of what awaited at the end of the ceremony. The night initially went as usual with the C.I.T.s thanking the honorees, key logs, etc. While making closing remarks, **JASON** brought out his fiancé, **MELANIE**, to talk about how happy he was to be at camp with her. Like clockwork, the news spread about the traitorous relationship that sprouted between an honorable Grenian, **JASON**, and a member of the Whittian household, **MELANIE**. After a few calls of his flute, Grenian **JEFF TOOMBS** emerged from the forest and argued with the Whittian **WOODY** regarding the marriage dilemma. The masters of the households then called up their former generals to engage in a great and mighty battle, Tug of War. Both teams pulled and pulled before the rope snapped over the fire, leaving Grenians and Whittians injured on the ground. In desperate need of new, healthier leadership, the overall captains for

Green and White were announced. Leading the Greens to victory this year is none other than **NEO SCHNEIDER, ANDREW MORRIS, BENNY GOLDBERG**, and **JOEY HAZAN**. To attempt to continue the dominance of the White team, **SIMON MANN, LEVI BLUM, LINCOLN DOWLING**, and **RYAN MAHONEY** will lead. The first event happened immediately after the reveal, as everyone walked in silence to the hockey rink for the Cheer-Off. In a close match, the Green team just barely edged out the 2-1 win, securing the late-night Cheer-Off win to start off Green and White 2024.

Super Vroom by Ethan Mann

Vroom 2024 was an unbelievable game to start off Green & White. Both teams' overall captains had been planning since the reveal on Sunday night, so

we knew it was going to be a special game of Vroom. The game started off very defensively with a lot of action around the service road. **CHARLIE SANFORD** was all over the place following many of the green shirts near the Koz's Slab flag and the Jeremy's House flag. The first flag taken was the barn flag by **LINCOLN DOWLING** and that made the game 2-0 in favor of the Whitians. The next flags taken were the OCR flag and the Wagman's Way flag, two of the hardest flags to get, by C.I.T.s **CHASE KAPLAN** and **MAX AGINS**. That made the game 4-2, still in favor of the Whitians. In the last 10 minutes of the game, the Koz's Slab flag was taken by **ANDREW MORRIS** to tie the game at 4-4 and send the game to sudden death or 'Golden Flag'. In Golden Flag, **ANDREW MORRIS** won the game by taking the Jeremy's House flag and tossing it over the service road to **TYLER FIELD**, giving Vroom 2024 to the Grenians.

Runners and Chasers

by Asher Berman

It was a warm and sunny afternoon at CM when the Green and White teams lined up around the traditional Runners and Chasers diamond. After the Whites elected to run second, the Green team came out of the gates with all of the momentum on the running side. While a lot of the younger campers

ran to the corners and were tagged quickly, many Senior campers of both teams put in veteran plays. They led by example, for instance, **TYLER FIELD** showed the importance of staying close to the line and moving between the sides of the line. Other members of the Green team had impressive runs as well. Notably, **JAKE LEVIN** and **MAX AGINS** showed the value of patience by causing chaos and standing behind screens to tack on time to a strong run for the Greens. The Whites came out hot and cold with stretches of runs headlined by Senior Cabin members such as **RYAN MAHONEY** and **SCOTT BIRKENSTEIN**. However, the effects of this were minimized by the shorter runs in which tags were stacked at the gate entrance. After overcoming this block, both metaphorical and physical, the Whites made good time to keep the game competitive. However, even the incredible efforts of **LINCOLN DOWLING** could not meet the high standard set by the Greens. So, after a strong game of Green and White Runners and Chasers, the Greens came out victorious.
