

The Way: Heart By **GAVIN BRAMWIT**

This Sunday, we focused on Sportsmanship out at The Way. **GAVIN BRAMWIT** explained the meaning of Sportsmanship at Camp Menominee. He said: "Sportsmanship, the element of life that separates the men from the boys. After a long, grueling competition, only the most mature are able to look their opponents in the eye, shake their hand, and say, 'good game'. Good sports never taunt the opposing team, nor do they exhibit malicious behavior towards them. Good sports always respect their adversaries, and hold their heads high through victory or defeat. It is not always easy to show good sportsmanship. Through spirited games against rivals, it is important to keep your composure. Those whose dignity always prevails have the best sportsmanship". Six campers and two counselors were then called forward; guys who have shown they have been able to keep their composure no matter the outcome of the game. Campers **ZACH FORMAN, DYLAN PELTS, SID VADNERKAR, CHASE KAPLAN, ERIC GOODMAN, SAM GOODMAN**, and counselors **BENJIE SOREN** and **RAY OUTRAM** were all honored for showing true sportsmanship.

Copper Falls By **RAY OUTRAM**

The trip to Copper Falls started with great excitement from the Junior campers. The campers were very eager and excited to get to their campsite, and get going on the trip. They were ready to set up their tents and spend the night in nature. As soon as we got there, the campers and counselors began to put up their tents for the night. Big shoutout to **BRAYDEN SUBRIN, ZACH FORMAN** and **FIN DORAN** for the extra help in putting up our tents. Once the tents were put up and everyone had moved in, both the campers and counselors were hungry and began making a fire to cook our already prepared burritos wrapped in tinfoil. Night was starting to fall and the campers enjoyed some of our favorite games we play at camp. Capture the Flag was the most popular, when voting on the game we were going to play, and everyone participated with great enthusiasm and a big smile. After the game, we were all very tired and had, lucky canteen number 223, an early night. The next morning, the campers woke up to the smell of donuts, a quick bite to eat before the big breakfast. Once they finished up, we began to put down the tents. When we concluded our clean-up session, we ate a marvelous breakfast, hosted by Copper Falls, of pancakes, sausage and orange juice. After we finished, we went on a hike around Copper Falls where the campers got the opportunity to see the beautiful natural landscape and nature. We finished the trail and were all very worn out so we went to the lake and cooled off for about an hour before we got in the vans and stopped at McDonalds for lunch. We all enjoyed a burger, fries and a nice cold soda. We then returned to camp later that afternoon before dinner. All the campers said they had a great time!

Where Does Woody Get His Jokes? By **BINGO BOB**

Where does **WOODY** go to get his jokes? At the gym, the barbershop, the optometrist, the flower shop, the pet shop, the barber shop, the doctor, the hospital, a bar, a restaurant, at the airport, in the park, a car showroom, in fact anywhere where humor can be found: and you can find humor everywhere and in everything. Indeed, it is the reason why big cats are always smiling and laughing: they have a sense of 'puma', ha ha.

Town Day, Town Day

By Editor **CALEB SAKS**

The last Sunday of the session, the best Sunday of the session. At CM, we have a tradition for the final Sunday of every session: after lunch, we board the buses and go into the town of Minocqua. Every camper was in a group of at least one counselor and multiple campers. The special part about Town Day is the fact that you do not need to be with people in your cabin or even your age group. Your group can be with the youngest camper in camp, all the way to the oldest, and even the counselor of your choice. In town there are a ton of different stores, dessert places, minigolf and restaurants. Some of the popular places are: Glicks (clothing), Minocqua fudge (fudge and toffee), Packerland (sports gear), The Toy Store (an abundance of toys), Kilwans (ice cream and fudge) and many more. My group decided our first stop would be Packerland. In this store you can find an endless amount of sports gear. **COLE ADAM** was nearly in heaven when he came across the Chicago Black Hawks hats.

Debating between three different hats, he finally decided which one was perfect for him. Wearing the hat for the rest of the day, it was obvious he made the correct purchase. As my group, **BUD MCLINDEN, WESLY WENTZ, COLE ADAM** and **TODD LAZARUS** was leaving the store, we waited for a minute as we watched **MICAH GAGERMAN** spin a wheel for just one dollar a spin. The wheel gave you the opportunity to win either a big prize, like a hat or shirt, or just sports cards. He won a hat his first round, and a deck of baseball cards his second spin. Our next stop was Kilwans where we all enjoyed a nice scoop of ice cream. It was magnificent and very filling. We decided we needed a food break, so we walked into The Toy Store. Though there was not anything we wanted to buy, it was fun to look at all the different toys. After viewing a couple more stores and spending more money, we got hungry again. That's when we decided to enter Kobe Sushi for dinner. All of us ordered two rolls, and they were devoured in a matter of minutes. We also enjoyed watching **JOSH 'ICE-MAN' NAMORDI** munch on his five rolls all by himself. So much sushi for such a little guy! Finally, we went to Alexander's Pizza where we played arcade games and met up with the rest of the camp. We walked for about ten minutes until we arrived at the Minocqua Bats Ski Show. This was quite an experience, especially for the first year campers and counselors. These skiers were able to do insane tricks like landing jumps, crazy 360 turns and barefooting. We got back on the bus and headed back to camp after a long afternoon and evening. What a great day!
